1. NATURE AND CONTINUANCE OF OPERATIONS

Scozinc Mining Ltd. (the "Company" or "Scozinc"), its subsidiary and its former joint operation (collectively, the "Group") is engaged in zinc and lead mining and related activities, including the exploration and evaluation of mineral property interests that are considered to have the potential for economic mineralization. The Company is a public company, which is listed on the TSX Venture Exchange and incorporated and domiciled in Canada. The address of its registered office is 15601 Hwy 224, Cooks Brook, Nova Scotia, B0N 1YO.

Pursuant to shareholder approval received in June 2015, the Company changed its name to ScoZinc Mining Ltd. effective October 1, 2015, at which time it began trading on the TSX Venture Exchange under the symbol SZM.

The consolidated financial statements have been prepared on a going concern basis, which assumes the Group will continue in operation through the fiscal year and into the foreseeable future and will be able to realize assets and discharge its liabilities and commitments in the normal course of operations at the amounts stated in the consolidated financial statements.

The Company has not generated revenue from operations. The Company has incurred a net loss of $ 314,300 for the three months ended March 31, 2016 (three months ended March 31, 2015 - $533,065), and as of that date has an accumulated deficit of $63,369,330 (December 31, 2015 - $63,055,030). As at March 31, 2016, cash and cash equivalents amounted to $2,720,010 (December 31, 2015 - $3,030,031) with working capital of $2,791,984 (December 31, 2015 - $3,081,638), which provides sufficient resources to meet its obligations for the next twelve months, based on normal course planned business operations.

In light of the current uncertain environment for metal prices and mine development financing, the Board of Directors (the "Board") does not believe that it is in the best interest of the Company to proceed with the restart of the ScoZinc Project at this time. The Board has authorized a small work program necessary to complete work under progress and to keep the project on care and maintenance in order to preserve its value. The Board will continue to monitor market conditions for the potential restart of the ScoZinc Mine until such a time that the outlook improves.

The Board will also continue to pursue other avenues to maximize the value of the ScoZinc Project, including, but not limited to, possible sale, joint venture or other transactions with third parties. The Company cautions that there are no assurances that any strategic alternative will be undertaken or pursued.

2. ACCOUNTING POLICIES

Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC. These condensed interim consolidated financial statements should be read in conjunction with the Company's audited consolidated finanancial statements for the year ended December 31, 2015.

These condensed interim consolidated financial statements were authorized for issuance by the Board of Directors of the Company on May 30, 2016

2. ACCOUNTING POLICIES (Continued)

Basis of Presentation

These unaudited condensed interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments which are measured at fair value. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

In the preparation of these unaudited condensed interim consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the period. Actual results could differ from these estimates.

Statement of Compliance

These consolidated financial statements of the Company, including comparatives, have been prepared in accordance with IFRS as issued by the International Accounting Standards Board.

These consolidated financial statements were authorized for issuance by the Board of Directors of the Company on April 29, 2016.

Basis of Consolidation

These condensed interim consolidated financial statements include the accounts of the Company, and its active subsidiary, ScoZinc. All significant intercompany transactions are eliminated on consolidation.

Future Accounting Pronouncements

The following standards have not yet been adopted and are being evaluated to determine their impact on the Company.

(i) In July 2014, the IASB issued the final version of IFRS 9, Financial Instruments (“IFRS 9”) which will replace IAS 39, Financial Instruments (“IAS 39”). This standard is effective for annual periods beginning on or after January 1, 2018, and permits early adoption. IFRS 9 provides a revised model for recognition and measurement of financial instruments with two classification categories: amortized cost and fair value. As well, under the new standard a single impairment method is required, replacing the multiple impairment methods in IAS 39. IFRS 9 also includes a substantially reformed approach to hedge accounting that aligns accounting more closely with risk management.

(ii) In January 2016, the IASB issued IFRS 16, Leases (“IFRS 16”). This standard is effective for annual periods beginning on or after January 1, 2019, and permits early adoption provided that IFRS 15 is also adopted. The objective of IFRS 16 is to bring all leases on-balance sheet for lessees. IFRS 16 requires lessees to recognize a “right of use” asset and liability calculated using a prescribed methodology.

(iii) Leases In January 2016, the IASB issued IFRS 16, Leases (IFRS 16). IFRS 16 is effective for periods beginning on or after January 1, 2019, with early adoption permitted. IFRS 16 eliminates the current dual model for lessees, which distinguishes between on-balance sheet finance leases and off-balance sheet operating leases. Instead, there is a single, on-balance sheet accounting model that is similar to current finance lease accounting. The extent of the impact of adoption of IFRS 16 has not yet been determined.

There are no other relevant IFRS or IFRIC interpretations that are not yet effective that would be expected to have a material impact on the Company.

3. MARKETABLE SECURITIES

Marketable securities are classified as fair value through profit and loss and consist of 10,103,334 common shares of Savant Explorations Ltd ("Savant"). The fair value of this investment is adjusted at each reporting period, which is determined directly by reference to published price quotations in an active market. For the year ended December 31, 2015, the fair value of the investment decreased by $50,517 (2014 – a decrease of $110,126), and the loss was recorded in the consolidated statement of comprehensive loss.

4. CASH HELD FOR RECLAMATION

The Group is required to make reclamation deposits in respect of its expected rehabilitation obligations as set out below.

The Company has agreed with the Province of Nova Scotia (Department of Natural Resources) to remediate the ScoZinc mine facility to an agreed status at the end of the mining operations at the site; as a result the Group is required to make reclamation deposits in respect of this obligation. As at December 31, 2015, a $2,736,234 (2014 – $2,705,394) cash bond, including accrued interest, is posted with the Province of Nova Scotia.

In addition, the Company has a reclamation bond with the Nova Scotia Department of Environment for $181,100 (2014 – $179,111), including accrued interest, which is required to address the potential replacement of domestic water supplies that could potentially be downgraded by mining operations.

Nova Scotia Business Inc. holds a reclamation bond in the amount of $100,000 (2014 - $100,000) in relation to the land, which the Company leases from the organization in Sheet Harbour. The bond will be held until the current lease agreement expires on April 1, 2018.

In concert with the Department of Natural Resources, the Company believes that the reclamation of the mine site will cost $2,600,000. As the ScoZinc mine facility is currently not in production and under care and maintenance, the Company has accrued the full amount potentially due.

11. SHARE BASED PAYMENTS

a) Stock Option Plan

A stock option plan ("Plan") was established to provide incentive to qualified parties to increase their proprietary interest in the Company and thereby encourage their continuing association with the Company. Each year, shareholders of the Company approve the Plan at the Annual General Meeting. The current Plan was dated April 25, 2011 and approved on May 11, 2012. These options have five year terms with one third vesting on the grant date, one third on the first anniversary date and the balance on the second anniversary date from the options grant date. With the approval of the Board of Directors, the vesting period may be reduced.

Share option activity for the three months ended March 31, 2016 and 2015 are as follows:

	Number of Stock Options Outstanding	Weighted Average Exercise Price
Balance - December 31, 2015 and March 2016	**165,000**	**$ 1.88**

11. SHARE BASED PAYMENTS (Continued)

b) Warrants and Broker Compensation Options

The following table reflects the continuity of warrants for the three months ended March 31, 2016 and 2015:

	Number of Warrants Outstanding	Weighted Average Exercise Price
Balance - December 31, 2014, March 2015 and 2016	**205,000**	**$ 17.00**

As at March 31, 2016, the following warrants were issued and outstanding::

Expiry Date	Exercise Price	Number of Warrants and Broker Warrants
April 11, 2017	$ 17.00	205,000

12. CONTINGENCY

On August 18, 2011, the Company engaged First Securities AS ("First") of Oslo, Norway to act as its agent to arrange a minimum of US$30 million of debt financing for the ScoZinc mine project. First terminated the engagement and claims that it is due its costs and a fee of US$1,050,000 because of the termination. Scozinc has paid First costs under the engagement and has informed First that it disputes the claim and that it is not entitled to any fees under the engagement. As of the date of filing these consolidated financial statements, the dispute is a claim and may be settled by arbitration. Management has determined that an outflow of resources is not probable, accordingly, a provision has not been recognized in these consolidated financial statements.

13. BASIC AND DILUTED LOSS PER SHARE

Basic loss per share is computed using the weighted average number of common shares outstanding during the period. Diluted loss per share, which reflects the maximum possible dilution from the potential exercise of warrants and stock options, is the same as basic loss per share for the year ended. The effect of potential issuances of shares under options and warrants would be anti-dillutive in the three months ended March 31, 2016 and 2015 as they would decrease the loss per share, consequently the weighted average number of shares outstanding for basic and dilluted are the same.

14. COMMITMENTS

The Company is committed under the terms of various operating leases as follows:

	2016	2017	2018
Harbour lease	$ 4,500	$ 6,000	$ 1,500
Equipment lease	1,335	-	-
	$ 5,835	**$ 6,000**	**$ 1,500**

(EXPRESSED IN CANADIAN DOLLARS)

15. RELATED PARTY TRANSACTIONS

All transactions with related parties have occurred in the normal course of operations and are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties. Except as noted, amounts with related parties are non-interest bearing, unsecured, payable on demand and have arisen from the provision of services and expense reimbursements described.
